Profile

Experienced Java developer with diverse skill set and creative drive to software application development. Proficient at designing computer systems, with writing code in various languages. Specialises in thinking outside the box to find unique solutions to difficult software problems. Effective in managing multiple assignments under extreme pressure while meeting tight deadlines.

Experience

Solsoft Ltd. Wrocław Poland	Senior Hybris Developer	2018-08 – present
Sii Poland Ltd. Wrocław Poland	Senior Java Engineer <ul style="list-style-type: none">• Outsourced to Nokia Solutions & Networks where I stayed for the whole period.• Developed new features, fixed bugs, and wrote unit tests in the client's Swing-based GUI application.• Participated in Scrum meetings, performed code review, and took part in pair programming• Learned the basics of using Jenkins and Gerrit to maintain Continuous Integration.• Helped other outsourced people from Sii get to know the internals of the client's system.	2018-05 – 2018-08
3M Service Center EMEA Wrocław Poland	IT Subject Matter Expert - Java/Hybris <ul style="list-style-type: none">• Participated in daily Tier 1 and SCRUM meetings and discussed work on a daily basis.• Came up with an improvement plan that allowed to reduce time to develop new features and fix bugs by nearly 30%.• Introduced three junior developers to the Hybris platform by performing training sessions.	2018-04 – 2018-05
Si-eCommerce Katowice Poland	Hybris Developer / Senior Java Developer <ul style="list-style-type: none">• Designed and developed Hybris data models and features.• Maintained and managed source code and release cycles.• Worked closely with clients to deliver functionalities on time and budget.• Created internal software for rapid porting of product catalogs from existing websites into Hybris.• Trained junior developers by preparing assignments and pair programming with them.• Worked on pre-sales presentations for potential clients by implementing simple commerce systems based on Hybris accelerators.	2015-09 – 2018-04
Gociety, Inc. Denver, CO United States (remote)	Software Developer / Team Leader <ul style="list-style-type: none">• Responsible for adding new functionality to the site.• Wrote new code, fixed bugs, and coordinated the development process.• Managed the project's AWS cloud deployment.• Clearly and regularly communicated with management to discuss progress and ideas.• Managed the local team of developers - assigned tasks, performed code review, done pair programming.	2014-04 – 2015-09
Learnplace.pl, Ltd Katowice Poland	Full Stack Developer / Team Leader <ul style="list-style-type: none">• Responsibilities included team management and full stack programming.• Responsible for developing a social networking site for people interested in various	2013-02 – 2014-03

Experience

- outdoor activities.
- Led a group consisting of four developers - assigned tasks, and reported progress to management.
- Worked on statistics dashboard for sales managers (temporarily - helped with bug fixing to meet deadlines).

**Web Scribble
Solutions, Inc.**
Troy, NY
United States
(remote)

PHP Developer

2012-05 – 2012-12

- Expanded the company's job board software with new functionalities and fixed existing bugs.
- Served as back-end development, but occasionally worked on front-end as well.
- Ensured to resolve identified issues related with development to different customers.
- Tested and analyzed features and reported the same to the manager.

**ProIntegra
Katowice**
Poland

Junior Software Developer / Quality Assurance

2011-06 – 2012-05

- Assisted during the development of an intranet portal for a major bank in Poland by writing small utility software.
- Helped with manual tests of the portal.
- Prepared detailed reports concerning project specifications and activities.
- Modified existing software to correct errors, upgrade interfaces and improve performance.

Projects

Vodafone Hungary

2016-01 – 2018-01

- Hybris-based implementation of a web shop for Vodafone Hungary.
- Made heavy Backoffice customizations (custom widgets, access rights management, and ticket system).
- Several front-end related changes (adapting the Telco accelerator to client's wireframes).
- Various back-end modifications (for example, bulk data loading from an Excel file).
- Regularly worked with the client on-site to ensure that work is being done according to the requirements and on time.

Durex

2017-02 – 2017-04

- Reduced the complexity of deploying multiple language versions of the same Hybris online store to different servers by merging several codebases into one and exposing the translated stores via separate URLs.
- Worked on fixing problems with third-party integrations.
- Helped with bug fixing both the front-end and the back-end to meet tight deadlines.

Orange Poland

2016-10

- Small Hybris submodule responsible for displaying services' availability and collecting marketing information from customers.
- Made SOLR index changes to allow for fast retrieval of available services.
- Small front-end modifications to match the look-and-feel of the application to client's wireframes.

Gociety

2014-04 – 2015-09

- Performed full-stack development - from creating the front-end through implementing the Java back-end.
- Designed and implemented a dedicated Javascript framework for the application.
- Worked on porting the system to Groovy and Grails and switching to a SQL database.
- Helped with deploying the application to the AWS cloud.
- Talked daily to the US team to fully understand their ideas and help implement them.
- Designed and implemented a REST API for a mobile application.

Education

**Zespół Szkół
Elektronicznych i
Informatycznych
Sosnowiec
Poland**

IT Technician

- Specialization: Repair and maintenance of computer hardware

2009 – 2013
